

Instructions for your charging process

Charging via QR code with credit card/debit card:

- 1 Connect the vehicle to the charging station via the charging cable:** Connect the charging cable to both your vehicle and the charging station. Ensure the charging cable is securely plugged in.
- 2 Vehicle identification by the charging station:** The charging station detects the connected cable and indicates that your vehicle is ready to start charging.
- 3 Scan the QR code on the display:** Scan the QR code with your smartphone and follow the displayed steps. Please also enter your payment information here.
- 4 Charging process begins:** After successfully entering your data, the charging process for your vehicle will start automatically.
- 5 End the charging process:** The charging process can be ended by pressing the „Stop“ button in the payment interface or directly through the vehicle (by unlocking or via the infotainment system). If necessary, scan the QR code again to end the charging process in the payment interface and follow the steps on your smartphone.
- 6 Disconnect the charging cable:** After successfully completing the charging process, you can disconnect the cable from your vehicle.

Charging via public charging card:

- 1 Connect the vehicle to the charging station via the charging cable:** Connect the charging cable to both your vehicle and the charging station. Make sure the charging cable is securely plugged in.
- 2 Vehicle identification by the charging station:** The charging station detects the connected cable and signals that your vehicle is ready for charging.
- 3 Use your charging card:** Hold your charging card up to the RFID reader below the display to start the charging process.
- 4 Charging process begins:** After successful authorization, the charging process will start automatically.
- 5 End the charging process:** The charging process can be ended either by holding the charging card to the RFID reader again or directly via the vehicle (by unlocking or using the infotainment system).
- 6 Disconnect the charging cable:** After the charging process is successfully completed, you can disconnect the cable from your vehicle.
